Step 1: Download the Overview File

1. Open your web browser.
2. Go to the following URL: <https://sopr.is/eve/misc/>.
3. Look for the file named "ChanhassenOV.yaml" and download it to your computer. You can usually do this by right-clicking the file link and selecting "Save link as."

Step 2: Save the File Locally

1. Open File Explorer on your computer.
2. Navigate to the directory where you want to save the downloaded file. You should go to `C:\Users\YOUR_USER_NAME\Documents\EVE\Overview`. Replace (YOUR_USER_NAME) with your actual Windows username.
3. Paste the file "ChanhassenOV.yaml" into this directory by right-clicking and selecting "Paste."

Step 3: Import Overview Settings In-Game

1. Launch your EVE Online client and log in.
2. In a chat channel type the following command:

```
/open overview settings
```

(no need to undock)

3. This command is used to open the Overview Settings menu without requiring you to undock your ship.
4. In the Overview Settings menu, locate the "misc" tab.
5. Click on "Import Settings" within the "misc" tab. This is where you can import the downloaded overview settings.
6. Look for the "ChanhassenOV" file in the list of available overview settings.
7. Check the "Check All" option to select all the settings contained in the ChanhassenOV file.
8. Finally, click the "Import" button to apply the imported overview settings.
